

## New Outlook

### We are up and running in a flash

This is the first New Outlook online from CWG Choices. In just a few weeks much has been achieved and there is total realisation by the whole team that there is plenty more to be done. The first achievement was to get up and running within the two factories. This happened after exemplary hard work and efficiency by Phil Redfern and his team. Communications had to be opened up between the two factories, so as to be able to provide a pleasant but efficient customer service. Stewart Hull and his team have done a sterling job in getting communications up and running. This was even more remarkable, when one considers that the direct line between the two factories, was not fully established until October.

Good News is always welcome, however bad news is better than no news, for sure, good communications are vital. Believe us, we know how important quality, communications and deliveries are and we will not rest until they are beyond reproach.

### New Products

Much has been said about the new products that we have introduced. However, just to recap there is the Yale lock and Haven Hinge for the doors, These have proved most popular and are performing well. For the windows there is the Kenrick locking system and the Cotswold hinge. In particular, the egress hinge is performing well and you can work it with one hand.

### Special Products

A family of products, available for use for that extra special job.

The MultiFold door continues to be a huge success and is ever increasing in popularity. There are some very impressive installations around, including one site with twelve Multifolds. This has multifolds on the ground and first floors. What a pity there were not more floors.

Last, but by know means least, Heritage 2 vertical slider is proving a great favourite. Its new look has proved very popular with those matching up the old with the new.

For any further information required on these products, please get in touch with **Debs Morrison at Corby please telephone 0870 626 7510 or email [debs.Morrison@cwgchoices.com](mailto:debs.Morrison@cwgchoices.com)**
